

Harini Rajesh

Machine Learning Engineer

hariniraaajesh@gmail.com — +91 70108 50229 — LinkedIn — GitHub

Career Objective

To build scalable and intelligent machine learning solutions by leveraging strong Python programming, data analytics, and model deployment skills, while continuously learning and contributing to data-driven business outcomes in a challenging Machine Learning Engineer role.

Professional Summary

Machine Learning Engineer with 3.2+ years of IT experience in Python development, data analytics, and machine learning projects across pharmaceutical, banking, FMCG, and EdTech domains. Experienced in the end-to-end ML lifecycle including data preprocessing, feature engineering, model development, evaluation, LLM, Vector DB and deployment. Strong backend development experience with SQL databases and REST- based systems, with hands-on exposure to MLOps fundamentals and cloud environments.

Technical Skills

- **Programming Languages:** Python, SQL
- **Machine Learning:** Supervised & Unsupervised Learning, Regression, Classification, Clustering, Ensemble Models
- **Deep Learning:** ANN, CNN, RNN (Basics)
- **Libraries & Frameworks:** NumPy, Pandas, Scikit-learn, TensorFlow, Keras, spacy
- **Backend Frameworks:** Django, Flask
- **Databases:** MySQL, PostgreSQL, MongoDB, chromaDB, DuckDB(Basics)
- **Data Visualization:** Matplotlib, Seaborn
- **Model Development:** Feature Engineering, Hyperparameter Tuning, Cross-Validation
- **MLOps & Deployment:** Model Serving, REST APIs, Docker
- **Cloud Platforms:** AWS (EC2, S3 – Basics)
- **Version Control:** Git, GitHub
- **Tools:** VS Code, Jupyter Notebook, PyCharm, Virtualenv, Pip

Certifications

- Data Science Certification – Edureka (Aug 2022 – Feb 2023)
- Agentic AI Certification – Edureka (Nov 2025 – Present)

Work Experience

Inventzo Systems (India) Pvt. Ltd – Chennai

Associate Software Engineer — Python Developer

Aug 2021 – Jun 2023

- Developed Python-based systems to manage pharmaceutical manufacturing and quality data.

- Automated data validation and regulatory compliance reporting workflows.
- Integrated multiple data sources to generate structured audit-ready reports.
- Improved data accuracy and reduced manual effort for quality assurance teams.

Focus R Technologies – Chennai

Oracle Technical Consultant — Oracle SQL Backend

Jul 2023 – Feb 2024

- Worked on enterprise-scale Oracle backend systems for FMCG manufacturing and distribution.
- Developed and optimized Oracle SQL and PL/SQL packages, procedures, and triggers.
- Improved query performance and supported backend reporting systems.

Nerdshub E Pvt Ltd – Chennai

Junior Machine Learning Engineer — Artificial Intelligence

Jun 2024 – Jan 2026

Project: ATM Hyosung – Intelligent Cash Dispensing System (Banking)

- Built ML models for ATM cash optimization and anomaly detection.
- Performed data cleaning, EDA, and feature engineering using Python.
- Reduced ATM downtime through predictive monitoring insights.

Project: Learning Management System (EdTech)

- Developed backend modules for authentication, course enrollment, and reporting.
- Implemented data workflows to track learner progress and usage metrics.
- Collaborated with frontend and QA teams for system stability.

Project: Predictive Analytics & Decision Support System

- Built regression and classification models on structured datasets.
- Improved model performance through feature engineering and evaluation.
- Supported deployment-ready ML pipelines.

Education

Bachelor of Computer Applications (BCA)

Cauvery College for Women, Bharathidasan University

Year of Passing: 2020 — Percentage: 75%

Achievements

- Successfully delivered ML and backend solutions across multiple industry domains.
- Contributed to production-grade ML models improving operational efficiency.
- Recognized for strong ownership in backend and data-driven project modules.

Declaration

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
